

**GIVE
EVERYTHING,
TAKE
NOTHING.**

ANNUAL REPORT 2018

nada

The foundation National Anti Doping Agency of Germany (NADA) is the relevant institution for clean sport in Germany. It works nationally and internationally to promote fairness, transparency and equal opportunities for all athletes. Its tasks comprise implementation of a standardised testing programme for Germany, execution of education and doping prevention measures, issuing Therapeutic Use Exemptions and answering medical inquiries, providing legal advice for federations and athletes, as well as international cooperation. NADA thus essentially contributes to preserving value in sports.

In July 2002, NADA was founded with a festive act in the Old City Hall of Bonn and has been recognised by the foundation supervisory authority on 21st November in the same year. Since then, it has been pursuing its valuable mission and supports the athletes who honestly pursue their sport. As a non-profit foundation under public law, financed according to the stakeholder model, it is an independent body. NADA opposes doping in sports nationally and internationally alike. For the future of sport. For Germany as a sport nation. For clean athletes, for transparent success and honest results.

FOR CLEAN PERFORMANCE – this is NADA’s vision. This is what brought the initiative **„GIVE EVERYTHING, TAKE NOTHING“** to life. It serves as a platform for everyone who wants to commit to the cause of clean sport.

For more information on NADA, see www.nada.de.

“ Our work processes and organisational structures have been evaluated by TÜV Hessen and thus by an independent external body. **With the certification according to the internationally recognized DIN standard ISO 9001, we are laying another cornerstone for the qualitative improvement of NADA Germany’s work.**”

Dr. Andrea Gotzmann, 30. May 2018

“ It is good to see already that **the means of the German Anti-Doping Act and the intensive investigations can be successful.**”

Dr. Lars Mortsiefer, 21. March 2019

“ **The extensive expertise of National Anti-Doping Organisations and WADA must have an even stronger influence on future anti-doping work.** Only in this way the trust of athletes can be regained in long term.”

Dr. Andrea Gotzmann, 05. June 2018

“ **By financing NADA Germany’s work, the Federal Government is sending a clear and unambiguous signal for clean performance in sport** and making a significant contribution to the successful implementation of the foundation’s diverse tasks. We are very pleased about this appreciation.”

Dr. Andrea Gotzmann, 06. June 2018

“ **WADA’s decision** to classify the Russian Anti-Doping Agency (RUSADA) as compliant at present time **is a severe setback for us.**”

Dr. Andrea Gotzmann, 20. September 2018

ENSURING EQUAL OPPORTUNITIES TOGETHER

Photo: ©Otmar Winterleitner

The year 2018 has once again proven that the work of our National Anti Doping Agency of Germany remains indispensable for a socially shared vision of equal opportunities in clean competitions. In September 2018, the Russian Anti-Doping Agency (RUSADA) was declared compliant again after a lengthy clarification and decision-making process in one of the biggest doping scandals in sports history. Since not all the criteria laid down by the World Anti-Doping Agency (WADA) for this re-approval were implemented, the clean athletes in particular were once again disappointed and the credibility of a control system based on the principle of equal treatment was questioned.

Clean athletes suffer from the decisions in anti-doping management that directly affect them in their everyday training and competition. The work of a National Anti-Doping Organisation (NADO), which is also comprehensively independent for them, is therefore essential and particularly important for fair competition.

NADA Germany is still committed to eliminating manipulative ways of influencing the testing system and conflicts of interest.

Politicians should engage and contribute to international anti-doping management. In Germany, this cooperation has enabled the criminal law basis of the Anti-Doping Act to be established. The recent cases in Seefeld (Austria) and Erfurt illustrate how profitable this cooperation is.

As the athletes are at the centre of NADA's anti-doping work, their involvement in committees and decision-making processes of national and international anti-doping work is essential. NADA supports the initiatives of clean athletes to clearly describe their rights in WADA's Athletes Rights Charter and efforts to improve independent anti-doping work worldwide.

NADA continues its uncompromising commitment to a fair doping-free sport in the service of clean athletes. The Supervisory Board considers it its duty to continue to support NADA Germany to the best of its ability on its way to promoting and preserving the values of sport in the future.

Siegfried Kaidel, President, German Rowing Association (until December 2018)

TESTING PROGRAMME

Plan

Authorise

Control

Photo: dominik golob photography

Optimised control planning

Based on the International Standard for Testing and Investigations (ISTI) and the WADC, respectively, as well as current scientific research, test planning was scientifically described and optimized within the department. In- and out-of-competition tests, which were previously managed separately, are now bundled according to sport and discipline. Under the keyword „interlacing“, the individual sporting development of athletes inside and outside the competition can thus be observed and assessed more effectively, area-wide and specifically by the respective NADA test planning experts.

Re-Analyses of long-term stored samples

In 2018, the department Testing Programme re-analysed all long-term stored samples of 2011 and 2012. The samples were re-analysed for long-term metabolites of the anabolic steroids oxandrolone, dehydrochloromethyltestosterone, metandienone and stanozolol as well as selected SARMs*, available peroxisome proliferator-activated receptor gamma agonists and effect-like substances, selected HIF* complex stabilisers as well as GHRPs*, GHSs* and GnRHs*. Among the 560 analysed samples of German athletes from out-of- and in-competition, no evidence of the presence of any of the above-mentioned prohibited substances was found according to the latest analytical methods.

Administration of around **400 Biological Athlete Passports** of the Hematological Athlete Biological Passport Module

Re-Analysis of long-term stored samples from the years **2011 and 2012**

International exchange

The department can rely on the advice of high-level representatives from (applied) science, research, theory and practice to develop innovative test models within the framework of regular commission meetings. In addition, international experts from the field of „test planning“ met for the first time in Bonn in 2018 at the invitation of NADA to shed light on current challenges, critically assessed the different issues and developed solutions. In particular, the focus was on the scientific advancement of the testing systems. Innovative approaches from the areas of „performance monitoring“, „risk assessment“, „sampling equipment/matrices“ and other essential topics of test planning were transferred into practice and proven.

International cooperation

In cooperation with the responsible international professional federations, NADA carried out the tests during the competitions at the World Triathlon Series in Hamburg, the Shorttrack European Championship in Dresden and the Wheelchair Basketball World Championship in Hamburg, among others in 2018. In the summer of 2018, NADA also coordinated the control activities for the cycling stage race „Deutschland Tour“ with the participation of international elite cyclists. In 2018, tests of German athletes also took place during stays abroad in Australia, Austria, Belgium, Denmark, Ethiopia, France, Great Britain, Czech Republic, Greece, Hungary, Italy, Japan, Liechtenstein, Mexico, New Zealand, Norway, Poland, Portugal, Russia, Sweden, South Africa, Spain, Switzerland, Thailand, the Netherlands and the United States of America.

OVERVIEW OF TESTING FIGURES AND NUMBER OF SAMPLES 2018

12,617 tests in total with **16,299** samples in total
[12,511 urine samples (77%); 3,788 blood samples (23%)]

7,012 out-of-competition tests with **9,673** samples
[7,008 urine samples (72%); 2,665 blood samples (28%)]

5,605 in-competition tests with **6,626** samples
[5,503 urine samples (83%); 1,123 blood samples (17%)]

545 tests with **734** samples of German athletes abroad

858 tested competitions

5,608 samples analysed on GH* & GHRFs* according to TDSSA*

4,406 samples analysed on ESAs* according to TDSSA*

1,190 samples for ABP* (haematological)

1,155 samples analysed on Insulins

3,165 samples analysed on special Stanzolol Metabolites

146 samples analysed on Cobalt

72 samples additionally analysed with IRMS*

52 samples analysed on ITPP*

35 samples analysed on Hematide

136 medication tests on horses with **165** samples
[136 urine samples (82%); 29 blood samples (18%)]

*ABP = Athlete Biological Passport;
*ESAs = Erythropoiesis Stimulating Agents;
*GH = Growth Hormone;
*GHRFs = Growth Hormone Releasing Factors;
*IRMS = Isotope Ratio Mass Spectrometry;
*ITPP = Myo-Inositol tris Pyrophosphat;
*TDSSA = Technical Document for Sport Specific Analysis (WADA)

LEGAL MATTERS

Regulate

Advice

Conduct proceedings

(Photo: Institut für Sportrecht/Deutsche Sporthochschule Köln)

Results management and disciplinary proceedings

In 2018, NADA's legal department initiated 69 results management proceedings for possible violations of anti-doping regulations. Of these, NADA initiated arbitration proceedings before the German Arbitration Institute (DIS) in 21 cases. Eight of the proceedings initiated by NADA have so far resulted in a sanction. In 20 cases, NADA filed a complaint with the responsible public prosecutor's office.

Results management and sanctioning procedure for **49** National Federations*

424 hearings, **227** filing failures and missed tests

69 initiated results management proceedings,
21 arbitration proceedings initiated by NADA

*for a detailed overview, see page 31 of the annex.

WADC review process

In order to meet current requirements, the World Anti-Doping Code (WADC) will be revised for the year 2021. To this end, WADA established a two-year, multi-stage revision process. The stakeholder consultation phase began in 2018. NADA has also submitted proposals for amendments that deal in particular with clarifications to improve the implementation of the existing regulations.

Evaluation of the NADC

On behalf of NADA, the Institute for Sports Law of the German Sports University Cologne conducted a fact-based evaluation of the National Anti-Doping Code (NADC) 2015. The results were presented in a panel discussion at the 8th Cologne Sports Law Evening. At the beginning of 2019, NADA assigned the Institute with the continuation of the evaluation in order, among other things, to develop proposals for the optimisation of the daily application of the NADC.

New and updated standards

Since April 1st, 2018, the new WADA code compliance standard has been in force. This will make it possible in future for WADA to pronounce clear and unambiguous consequences against organisations and countries that do not implement the WADC requirements. Furthermore, the standard for data protection was adapted to the requirements of the General Data Protection Regulation (GDPR) as well as the changes made by WADA to the International Standard for the Protection of Privacy and Personal Information (ISPPPI).

Cooperation with Sportradar AG

In the future, NADA will cooperate with Sportradar AG within the scope of its Intelligence & Investigations work. Sportradar supports NADA in the area of investigation and determination of doping relevant facts by investigative measures, especially in the areas of network research and case analyses as well as due diligence, risk and compliance analyses.

International Cooperation

In March 2018, NADA's Intelligence & Investigations team participated in a WADA meeting on „Anti-Doping Investigation“ in Helsinki, Finland. Representatives of National Anti-Doping Organisations, international sports associa-

tions, INTERPOL and WADA exchanged views on current innovations in investigative work.

„SPEAK UP“ - NADA's whistleblower system

Only five whistleblower systems worldwide work with an encryption technique and maintain the anonymity of the whistleblower during further contact. The „SPEAK UP“ whistleblower system of NADA is one of them. This result was published by Leeds Beckett University in the report „Global Whistleblowing Landscape for Reporting Doping in Sport“ on behalf of WADA.

2,853 accesses to NADA's „SPEAK UP“ whistleblower platform and **54** reports

20 criminal charges, **10** informatory notifications to the responsible public prosecution's office

4 identified anti-doping rule violations resulting from specific information provided through the „SPEAK UP“ whistleblower system

SPEAK UP

NADA's WHISTLEBLOWER SYSTEM

Advisory and information services

Within the framework of daily telephone consultation hours, the medical department advised on a total of 1,081 enquiries regarding doping-free treatment possibilities in the event of illness and health complaints. In addition, the medical department published the German translation of WADA's Prohibited List, the NADA „MediCard“ as well as the „Example List of Permitted Pharmaceuticals“. The medical database NADAméd and the e-learning programme for medical personnel complement the department's range of information.

Training series

The department strengthened the skills of pharmacists, doctors and medical staff with nationwide presentations in order to sustainably support them in their role for clean sport. In 2018, NADA's medical department attended further training courses for pharmacists at the Regional Chamber of Pharmacists for Saxony and the Pharmacists' Chamber of Saxony-Anhalt as well as at PHOENIX Pharma SE in March 2019. The department also provided information at medical and physiotherapist conferences of the German Olympic Sports Confederation (DOSB), the German Athletics Federation (DLV), the Olympic Centre Rhineland and the Association of Physicians in Germany (Verbandärzte Deutschland e.V.).

PREVENTION

Explain

Protect

Communicate values

[Photo: © Gregor Hübl]

Evaluation of NADA's prevention programme

Between August 2015 and December 2017, the Institute for Pedagogy of the German Sports University Cologne evaluated the activities and offerings of NADA's prevention programme „TOGETHER AGAINST DOPING“. As a result, development potentials as well as recommendations for action were expressed, which support NADA's prevention experts in the further development of NADA's target groups.

ADO-Workshop in Bonn

In 2018, NADA organised a two-day workshop for the first time in Bonn for the anti-doping officers (ADOs) of the federations within the DOSB, during which the role of the ADO in anti-doping work was discussed.

NDPP transferred into the prevention programme

The transfer of the National Doping Prevention Plan (NDPP) into NADA's „TOGETHER AGAINST DOPING“ prevention programme provided further positive impetus for strengthening prevention work in Germany.

Department

Thomas Berghoff took over as head of the department in February 2019. Prior to this, he worked for 6.5 years in the Department of Prevention.

COMMUNICATION & MARKETING

Raise awareness

Provide a platform

Publish

Public relations

In press briefings and conferences in 2018, NADA provided further information on its anti-doping work. The annual press conference in Berlin in June 2018 focused on the presentation of the annual figures. During the journalists' workshop in October 2018, NADA gave the participants insights into its work to support their media coverage. In the concluding discussion round, Claudia Bokel (FairSport), Benjamin Cohen (International Testing Agency), Dr. Matthias Kamber (former Antidoping Switzerland) and Dr. Andrea Gotzmann (NADA) dealt with the topic „Anti-doping work put to test - how can trust be regained?“.

At a joint press conference in the German House at the Olympic Winter Games in PyeongChang (South Korea) in February 2018, NADA Germany and NADA Austria stand up for a globally independent anti-doping work.

22 Events and activities under the initiative „GIVE EVERYTHING, TAKE NOTHING“

Under the slogan „My pearls are clean“, the athletics campaign focused on the physically strenuous and sweat-inducing training before the European Championships.

Initiatives for clean sport

Within the framework of the European Championships in Athletics, the European Championships in Para-Athletics and the World Championships in Wheelchair Basketball, NADA, together with athletes and the support of the DLV and the German National Paralympic Committee (DBS), set a sign for equal opportunities and clean performance with two campaigns in the summer of 2018. Two videos and several blog entries by the athletes were a central part of the campaign. With the information booth of the initiative „GIVE EVERYTHING, TAKE NOTHING“ NADA offered again a platform to promote clean sports.

HUMAN RESOURCES, FINANCES & CONTROLLING

Manage

Business Development and Financial Situation

In the fiscal year 2018, NADA implemented a quality management system for the certification of itself. TÜV Hessen certified NADA according to DIN EN ISO 9001 in the area of application „Promotion, implementation and coordination of anti-doping work in Germany by means of suitable sports science, educational, social, medical and legal measures“. Furthermore, NADA implemented measures for the continuous optimisation of data protection and data security, among other things by implementing corresponding software solutions.

The fiscal year ended with a positive result of € 5 thousand. As in the previous year, the lack of financial support for the economy was compensated by the predominant financing of the Federal Government and the fundamental participation of sport. Thus, stable financing of the foundation's tasks is currently guaranteed.

The Federal Government contributed € 3,966 thousand to NADA's operating business, while the federal states

jointly contributed € 479 thousand to the financing of doping prevention. Sport made a contribution of € 2,829 thousand.

The total operating budget amounted to around € 9.7 million. Included are federal funds in the amount of around € 2.2 million, which were passed on to the WADA-accredited laboratories in Cologne and Kreischa for the financing of research and analysis purposes.

In the area of property management, NADA acquired a further property at Platz der Vereinten Nationen 7 in order to relieve the spatially tense situation in the two offices at Heussallee 28 and 38.

As of December 31, 2018, NADA had 32 full-time employees and seven part-time employees as well as six employed on a part-time basis.

Total budget of **9.7 million Euro**

6.2 million Euro from federal funds (64%)

Revenues	in %	in €

INTERNATIONAL COOPERATION

Network

Cooperate

Standardise

International exchange

Exchange with international colleagues is essential to ensure equal opportunities worldwide. NADA took part in the WADA Symposium entitled „Shaping the Future of Clean Sports“ as well as the INADO Workshop „A Tale of Two Codes (2015, 2021)“ in Lausanne in March 2018. NADA is also a member of the group of established NADOs who have been working to improve global anti-doping work to protect clean athletes since 2015. The so-called CEO Leaders Group met three times in 2018 and, as part of the discussions, proposed changes to promote clean sport worldwide. The exchange with various NADOs, such as colleagues from Austria, Switzerland and Kazakhstan, continued to be part of NADA’s international activities.

International bodies

Dr. Andrea Gotzmann has been appointed to the Independent Member Federations Sanctions Panel of the International Weightlifting Federation (IWF). The panel is responsible for monitoring the anti-doping work of the IWF member federations and imposing appropriate sanctions in the event of non-compliance with the rules. Furthermore, last year Dr. Lars Mortsiefer was elected Chairman of the Advisory Group on Legal Issues of the Monitoring Group in the Council of Europe. The Monitoring Group of the Council of Europe monitors the implementation of the anti-doping rules and represents European interests vis-à-vis WADA. As a member of the WADA Education Committee, Dominic Müser, Head of NADA’s Prevention Department, played a key role in shaping the new International Standard for Education.

GIVE EVERYTHING, TAKE NOTHING.

As a member of WADA's Laboratory Expert Group, Dr. Andrea Gotzmann attended a meeting of the expert group in London (UK) in June 2018.

Representatives of leading NADOs met in 2018 in Bonn (January 2018), London (June 2018) and Paris (October 2018, picture) to work for the uniform implementation of the anti-doping rules worldwide.

Dr. Maira Bakasheva (Director AntiDopingKAZ), Dr. Andrea Gotzmann and Dr. Detlef Thieme (Director of the Institute for Doping Analytics and Sports Biochemistry Dresden in Kreischa, IDAS) agreed on more intensive cooperation in the fields of doping prevention, doping control systems as well as analytics and research.

At a meeting at the White House in Washington D.C. (USA), representatives of athletes and NADOs called for a reform of WADA to strengthen its independence and thus regain confidence in anti-doping work worldwide. NADA's CEO Dr. Andrea Gotzmann also attended the meeting.

In October 2018, Dr. Martin Vaso (Chief Human Resources & Services Officer) and Alexis Weber (Head of Medical & Anti-Doping) of the international football federation FIFA were guests at the NADA office for an exchange on topics such as the testing programme in German football and doping prevention issues.

In February 2018, Dominic Müser was part of WADA's Athlete Outreach Team at the Olympic Winter Games in PyeongChang (South Korea) to raise awareness for clean sports among athletes and support staff on site.

REPORT OF THE DATA PROTECTION OFFICER

Photo: ©Inga - stock.adobe.com

Data protection

The data protection officer Dr. Ralf Schadowski is the responsible external data protection officer. He is personally ISO 17024 certified in the area of data protection and is therefore continuously monitored.

He supports the National Anti Doping Agency of Germany with 35 data protection specialists from his team who, depending on the specialist, also have current training levels.

Summary of the report

Herewith I certify an existing data protection management system according to the requirements of the valid Federal Data Protection Act 2018 (new) and the General Data Protection Regulation (GDPR) as an externally appointed data protection officer of the National Anti Doping Agency of Germany.

The National Anti Doping Agency Germany has undergone an admission based on BSI Basic Protection and has implemented the recommendations for action.

In particular, the following areas will be implemented in the DSMS data protection management system:

- Order processing according to Art 28 DSGVO / §62 BDSG
- Procedural directories according to Art 30 DSGVO / §70 BDSG
- Appropriate information procedure according to Art 15 DSGVO / §34 BDSG
- Technical organisational measures according to Art 32 DSGVO
- Privacy policy
- Data protection employee sensitisation

Data Protection in Germany

EU data protection has so far been rather ineffective. This was also due to the lack of sanctions. With the 25.5.2018 penalties of up to 20 million Euro or up to 4 percent of the worldwide annual turnover threaten - whichever is higher. Factors, such as the gravity and duration of an infringement, the number of people affected and the deliberateness should be taken into account in the level of penalties.

In future, affected parties can complain about possible infringements to the national data protection authority or the new EU-data protection committee.

The implementation of the new legal requirements was implemented at the National Anti Doping Agency of Germany on 25 May 2018.

NADAJus database

The NADA database NADAJus for the administration of sensitive and particularly sensitive data on the legal basis of the WADC and the NADC derived from it in connection with the Anti-Doping Act did not show any disturbances, conspicuities, erroneous accesses or even data losses in the reporting period.

The use and publication practice is carried out in close coordination with the responsible data protection supervisory authority on the part of NADA.

Procedure log

So far, the procedure directories have been created in the areas:

- IT
- Administration / Secretariat
- Accounting department
- Office Communication / Office / Writing Department

Further process directories are being created. Existing process directories are maintained continuously.

Fulfilment of information duties

The data protection information for websites and portals has been adapted to the requirements.

Data erasure concept

Data will be deleted or blocked after the legal basis has ceased to exist or after a consent has been revoked, depending on the technical possibilities. Deletion instructions can also be found in the procedural indexes.

The implementation of the deletions still has to be organised to a large extent.

Rights of data subjects

The appropriate information procedure has been prepared, the process has been established and the template for possible requests for information has been drawn up.

No requests for information have yet been received.

Data security incidents

There were no reportable data protection incidents or IT security incidents in the reporting period.

Order processing agreements

All relevant service providers within the meaning of contract processing pursuant to Art. 30 DSGVO were contractually fixed and randomly inspected.

The technical and organisational measures pursuant to Art. 32 of the DSGVO were examined and approved as a minimum guarantee of compliance with the accountability obligations pursuant to Art. 5 of the DSGVO.

Training provided

The employees of NADA were subjected to a data protection employee sensitisation (BDSG, TKG, SGB, EU DSGVO).

Prior data protection checks of essential processes

The data protection officer will be requested if necessary, for example:

- Infrastructure enhancements
- Operation of IT solutions
- Data protection requests from athletes
- Privacy requests from employees
- Data protection requests from other third parties

Information security

The responsible body was subjected to a BSI basic protection audit and recommendations for action were implemented.

NADA has appointed a neutral external IT security officer. In the reporting period, there were no relevant IT disruptions or violations of information security.

Perspective

In 2019, the data protection work at the National Anti Doping Agency of Germany will be continued.

Dr. Ralf W. Schadowski
External Data Protection Officer

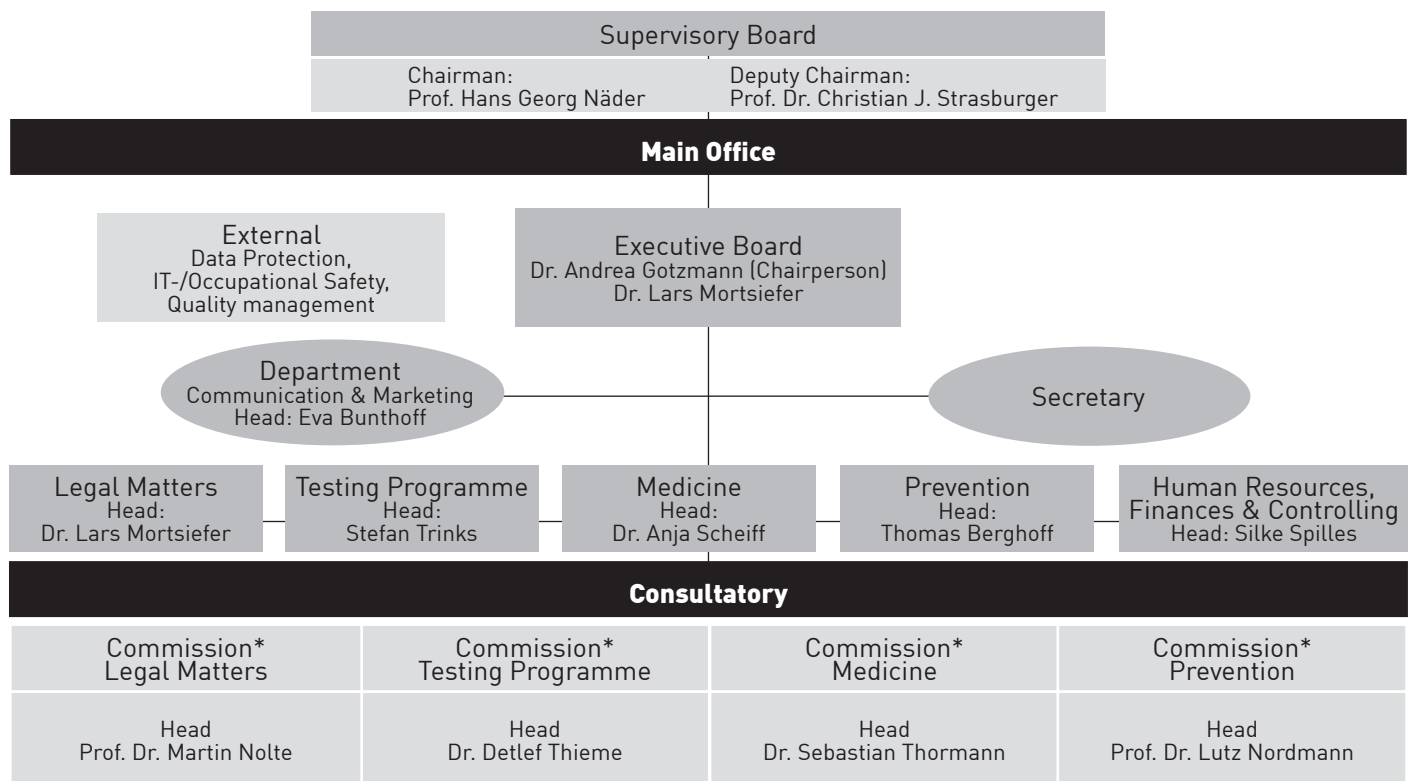

NADA's Ombudsman

The former rower and Olympian Prof. Roland Baar acted as an independent ombudsman for anti-doping matters until June 2018.

He died unexpectedly and suddenly at the age of 53. Roland Baar was an important confidante for NADA and the athletes seeking advice. He was an important combatant for clean sport and has done essential work for confidence in anti-doping work. With great respect and shared grief with his family, NADA said goodbye.

ORGANISATION CHART (STATUS: MAY 2019)

* NADA's commissions have an advisory function as an honorary body. Members of the commissions are not involved in NADA's daily business and have no decision-making power.

Type of testing	Substance	Sanction	Criminal complaint
Out-of-competition	Carboxy-THC [THC] (S8.)	Pending	NADA
In-competition	Infusion (M2.2)	No anti-doping rule violation	
In-competition	Prednisolone (S9.), Prednisone (S9.)	Retro-TUE (NADA)	
Out-of-competition	Carboxy-THC [THC] (S8.)	Ineligibility (5 months)	NADA
Other	-	No anti-doping rule violation	
In-competition	Stanozolol (S1.1a)	Pending	NADA
In-competition	Carboxy-THC [THC] (S8.)	Ineligibility (6 months)	NADA
In-competition	Higenamine (S3.), Heptaminol (S6.b)	Ineligibility (2 years)	
Out-of-competition	Trenbolone (S1.1a), Nandrolone (S1.1b), Boldenone (S1.1.b)	Pending	NADA
In-competition	Erythropoetin (S2.1)	Ineligibility (8 years)	NADA
Out-of-competition	Hydrochlorothiazide (S5.), Amfetamine (S6.a)	Pending	NADA
Out-of-competition	Amfetamine (S6.a)	Pending	NADA
Out-of-competition	Prednisolone (S9.), Prednisone (S9.)	med. Certificate	
Out-of-competition	Methylphenidate (S6.b)	med. Certificate	
In-competition	Chorionic Gonadotrophin (S2.2)	TUE (NADA)	
Out-of-competition	Clomifene (S4.3)	med. Certificate	IM
Out-of-competition	Benzoyllecgonine [Cocaine] (S6.a), Amfetamine (S6.a)	Pending (IF)	NADA
In-competition	Methylphenidate (S6.b)	med. Certificate	
In-competition	Triamcinolone acetonide (S9.)	No anti-doping rule violation	
In-competition	Dexamethasone (S9.)	No anti-doping rule violation	
In-competition	Triamcinolone acetonide (S9.)	No anti-doping rule violation	
In-competition	Triamcinolone acetonide (S9.)	No anti-doping rule violation	
In-competition	Carboxy-THC [THC] (S8.)	Ineligibility (6 months)	NADA
Other	Prednisolone (S9.)	Pending	
In-competition	-	No anti-doping rule violation	
In-competition	-	Dismissal	
Out-of-competition	Methylphenidate (S6.b), Oxycodone (S7.)	TUE (IF)	
Out-of-competition	Dorzolamide (S5.)	No anti-doping rule violation	
Out-of-competition	Prednisone (S9.)	med. Certificate	
In-competition	Furosemide (S5.)	TUE (NADA)	
Out-of-competition	Hydrochlorothiazide (S5.)	Med. Certificate	IM
Out-of-competition	-	Pending	
Out-of-competition	Carboxy-THC [THC] (S8.)	Ineligibility (2 years)	NADA
Out-of-competition	Methylhexanamine (S6.b)	Ineligibility (4 years)	
Out-of-competition	Benzoyllecgonine [Cocaine] (S6.a)	Pending	NADA
Out-of-competition	Torasemide (S5.)	Pending	
Out-of-competition	Torasemide (S5.), Carboxy-THC (S8.)	Ineligibility (2 years)	NADA
Out-of-competition	Heptaminol (S6.b), Higenamine (S3.)	Ineligibility (2 years)	IM
Out-of-competition	Methasterone (S1.1a), Trenbolone (S1.1.a), Desoxymethyltestosterone (S1.1.a)	Pending	NADA
Out-of-competition	Hydrochlorothiazide (S5.), Canrenone (S5.)	med. Certificate	IM
Out-of-competition	Hydrochlorothiazide (S5.), Canrenone (S5.)	med. Certificate	
Out-of-competition	Hydrochlorothiazide (S5.)	med. Certificate	
In-competition	Blood plasma donation (M1.1)	Retro-TUE (NADA)	
In-competition	Insulin (S4.5)	Retro-TUE (NADA)	
Other	Vilanterol (S3.)	Pending
